

Dog Days of Summer

The Summer months are certainly not lazy and hazy here at Walsh Electric! The sun is shining brightly in our direction due to the hard work and dedication of our loyal employees. Since 1979, our clients have come to trust and depend on our exceptional reputation to get the job done efficiently, and we have not let them down. The proof is in the pudding, folks!

As we continue to build on our strong foundation with our existing clients that come back to us time and time again, we are also forming new relationships with clients that are eager to work with us because of our reputation and our WBE (Women's Business Enterprise) certification. So, we wipe the sweat from our brow and forge on proudly as we begin work at numerous new projects. Shawmut Design and Construction has awarded us the contracts for two projects at the 34th Street location of Victoria's Secrets as well as the two new Uniqlo stores at the Staten Island Mall and Atlantic Terminal Mall.

Also starting at the Staten Island Mall are Justice, Hot Topic, Dynamite, Chanel, MetroMart and Stride Rite. We remain consistently busy in the Bergdorf Goodman stores. We're also flying from our awarded projects at the JFK Delta Terminal #3 Demolition Project as well as our LaGuardia Airport Maintenance contract. In our own backyard, March Construction is ready to give us a workout at LA Fitness. Walsh Electric's WBE certification has been a key driver in broadening our horizons with new clients that are looking forward to working with us. Five Star Electric has put their trust in Walsh to help them efficiently complete work at Newtown Creek and MTA Brick Arch Subway Stations.

We are also very excited about our new relationship with WDF, who has awarded us the electrical work at the Red Hook Water Pollution Control Plant. Lastly, E-J Electric has awarded us work at the New MTA #7 Subway Line Extension in Midtown Manhattan. Walsh Electric is so grateful to our clients, old and new, for their confidence in our ability to deliver the highest quality of electrical work available! 

Recently Completed and Ongoing Projects

It's a prideful moment when you walk through a newly renovated JC Penney's store at the Staten Island Mall and over-hear a customer saying, "Wow! This store looks incredible!" What a wonderful compliment and testament to our company's performance. That same reaction has been the consensus of our clients as we have recently completed work at various locations.

The Disney Store at Times Square is open for business, as well as Pier 1 Imports on Richmond Avenue. If you're visiting the Staten Island Mall, be sure to stop by Champs, Sushi Bento and Cache to view the product of our hard work. Also recently completed is the Northfield Bank in Brighton Beach for The Eagle Group and Sunglass Hut at 1540 Broadway for Sweet Construction.

Our ongoing projects are progressing nicely at White House Black Market, Van Cleef and Arpels, Bergdorf Goodman, and Miller's Ale House. We are also diving into our awarded MTA project at the Mother Clara Hale Bus Depot for Five Star Electric. We are looking forward to working on many more MTA projects in the future, and we are eager to the task! ⚡

Walsh Electric's New Website

We are proud to announce the July 1st launch of our new website at WalshEC.com. It is an interactive site that allows you to view our company history, our services, photos of completed projects, testimonials of satisfaction from clients, highlights of our ongoing service to our community and so much more! This upgrade to our website is very user friendly, and showcases Walsh Electric as a professional electrical contractor capable of meeting the highest expectations of work to all of our clients. Be sure to check it out and pass it on! ⚡

Helping Others...The Walsh Way!

On June 2, 2013, The Staten Island Children's Campaign, the non-profit arm of the Staten Island Advance, hosted a "Touch a Truck" event at the Staten Island Yankee's ball field. Walsh Electric's bucket truck was a featured attraction at the event and brought big

smiles to the youngsters who were able to see it up close. Another June event hosted by the Staten Island Children's Campaign was their annual "Toss for Tots" held on June 19, 2013 at The Vanderbilt. Walsh Electric donated all of the temporary lighting needed to ensure the event's success. We would like to thank all who attended these events to support our ongoing effort to assist the youth of our community through such a remarkable organization. We are so proud to have such a strong affiliation with The Staten Island Children's Campaign! ⚡

A message from the Vice President

I would like to take this opportunity to personally thank the men and women that comprise the staff at Walsh Electric. 2013 has seen a dramatic increase in everyone's workload and it is amazing to see everyone come together and "Make it Rain". We are fortunate to be in a position of strength thanks to the foundation my mother and father set over 35 years ago. As we grow in size, it is important to remember where we came from. The principles that founded this company are the same principles that will guide us into the future...honesty, integrity, fairness, loyalty, cooperation, and a level of service second to none. I look forward to the rest of 2013 as well as the years to come! ⚡

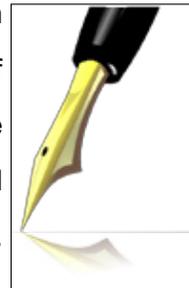

SAVE THE DATE!

Walsh Electric's
2nd Annual
Christmas Party
is **December 7th!**

News and Notes

I am pleased to announce that our new team member, Erin Mahon, has graciously accepted to be the new author of Walsh Electric's Live Wire. This is her first edition. Feel free to email her to compliment her on a job well done as well as if you have any ideas or topics for future newsletters.

Thanks Erin! Erin.mahon@walshec.com ⚡

Walsh is Growing!

With so much newly awarded work and more to come, it's no surprise that we needed to increase our Walsh staff to keep up with it all. So, in true Walsh Electric momentum, we have added four new employees to our office staff. We wish to welcome Natalie Dodin who has filled the position of Financial Controller, Paul Marano who has joined our dedicated team of Project Managers, Erin Mahon has taken on the role of Junior Estimator for our private work and Matthew Sagona has accepted the position of Junior Estimator

for our public work. It has become a crowded, yet happy house here on North Railroad Avenue, and our expanding team has made it necessary to expand our working space as well. In our 2,100 square foot office, some walls have been removed, some doors have been added and quite a few new desks and computers are now bustling with daily activity. But our office is not the only thing that has grown. In the past four months, we have also added twenty new men to our field team. Everyone is doing a fantastic job with the increase in our work load, and working together as a team with the common goal to make Walsh Electric everyone's number one choice for all of their electrical needs! ⚡
