

Walsh Electrical Contracting, Inc.

Our mission is to provide electrical work of the highest quality, competitively priced, while ensuring the satisfaction of our clients, and always maintaining ethics, integrity, fairness, honesty, and a level of service second to none.

Linda Walsh
President

Linda Walsh, President of Walsh Electrical Contracting Inc., established the company with her husband, Kevin J. Walsh, in 1976. Throughout the ensuing years, she worked alongside Kevin as chief financial officer and general manager of Walsh Electric. In 2006, Linda received her master electrician's license. Upon the passing of Kevin in 2011, Linda became the president of Walsh Electric. A graduate of St. John's University, Linda is the proud mother of Ryan J. Walsh, Amanda Walsh Alappat and three grandchildren. She, along with Ryan, is looking forward to a very exciting and innovative future for Walsh Electric.

Walsh Electrical Contracting, Inc. was founded in 1976 by Kevin Walsh. Based in Staten Island, New York, Walsh's primary focus was the residential market. In 1979, Walsh Electric joined Local Union #3 and began to branch out into the commercial sector as well as other boroughs outside of Staten Island. As years passed, the company steadily grew and performed work in all five boroughs on New York City in the residential, commercial, and industrial markets. In 2011, the founder, Kevin Walsh, passed away. His legacy lives on through his wife, Linda, and son, Ryan. Today, Walsh Electric is proud to be in business for over 35 years and looks forward to many more years of service and dedication to our clients and community through new and innovative markets and technologies.
